- > Oracle Weblogic Server v.10 and up or Tomcat Server v. 8 and up
- > Client Operation Systems – Windows versions XP, 7 and 8
- > Browser IE v.9 and up, Firefox, Chrome, Opera, Safari

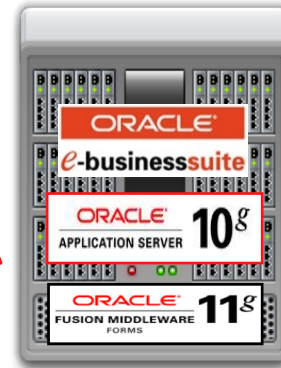

Behind the Scenes – Development Arch

Must be able to run
Forms on PC

**AuraPlayer Jar
Downloaded to client**

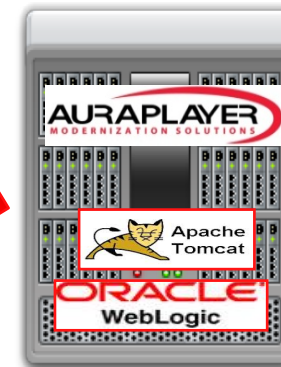

Record
Webservice
on application
URL

**Oracle EBS / Forms
Test Server**

**Install
AuraPlayer
Jar Files in
Java Folder**

Upload
Webservice
File to server

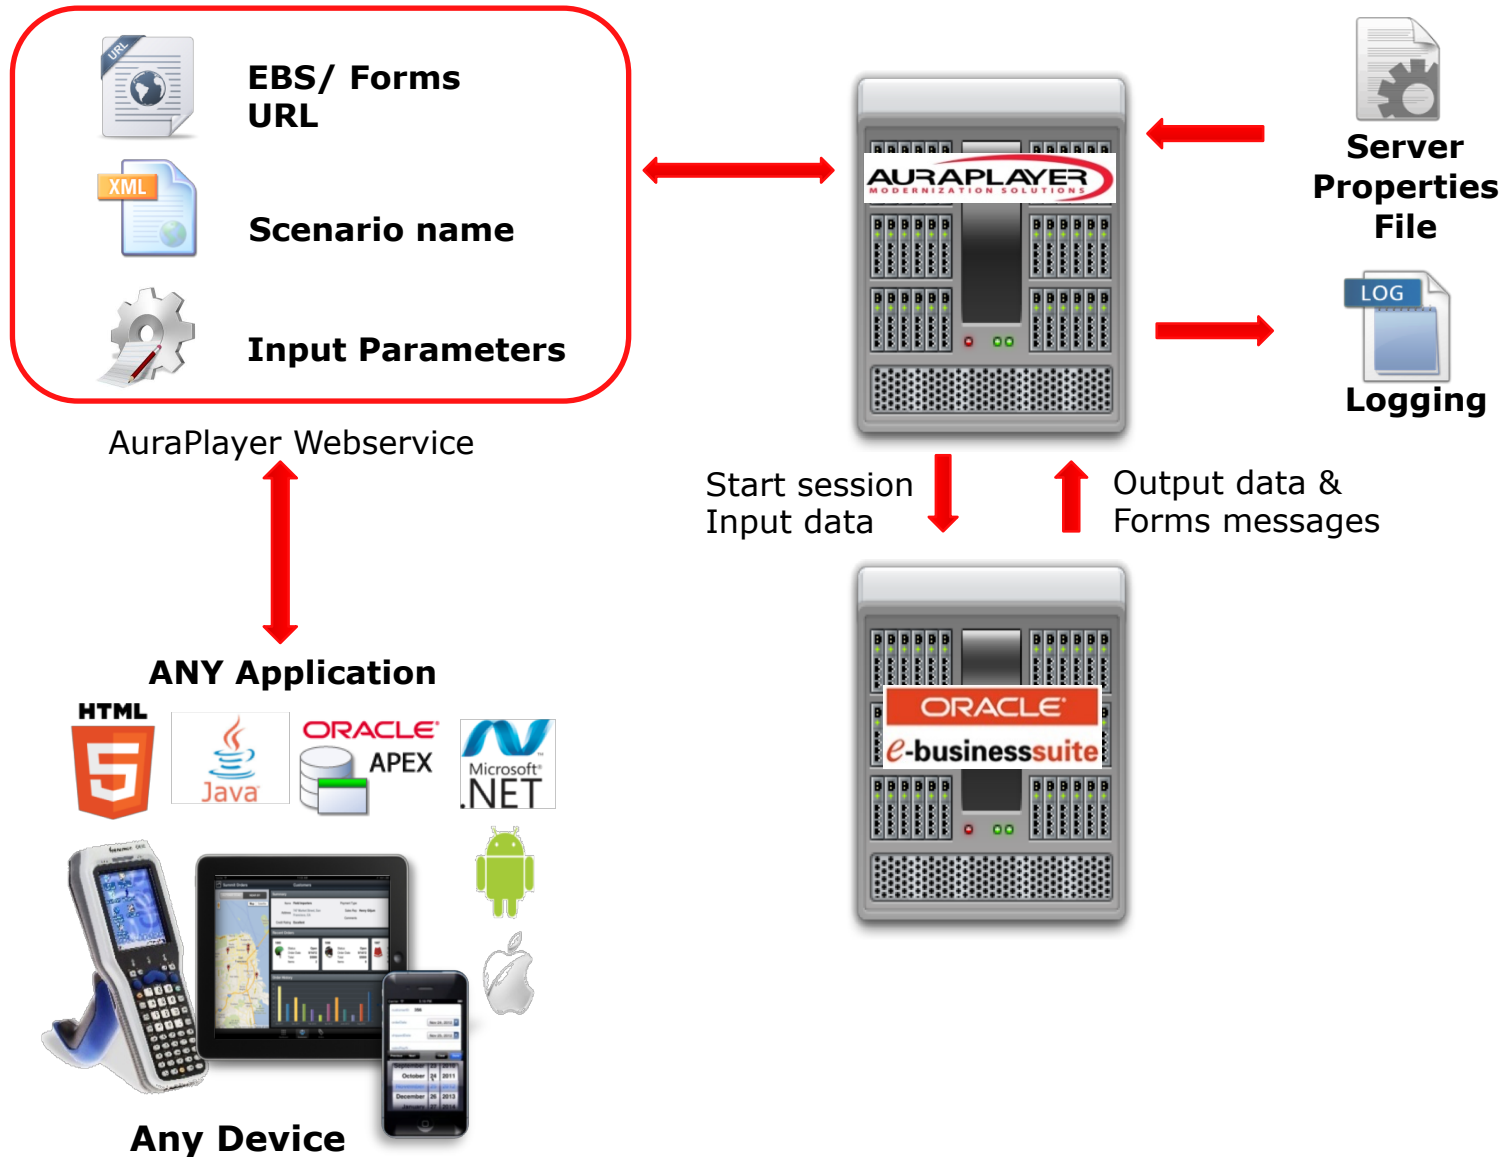

**AuraPlayer
ServiceManager
Server
(Can be Forms/EBS
Server)**

**Deploy
AuraPlayer
WAR File**
